SPECIFICATIONS

The PP710190V36/V6/V9 series electric V-ball packages feature the Valpres 3-piece stainless steel series 710190V36/V6/V9 NPT ball valve with 25% carbon filled PTFE seats, and thermal relief hole in the stem slot. The valves are rated for 1000psi maximum working pressure. The Valbia pneumatic actuator comes with a hard-anodized aluminum body, and powder coat-ed end caps. In addition, all Valbia pneumatic actuators are standardly furnished with elevated temperature seals to 302°F. The patented side loaded limit stops never enter the piston chamber eliminating extra possible leak paths. The assembled package also features a compact PNP-B positioner with an input signal of 3-15psig.

- Hard anodized extruded aluminum body
- Concentric spring sets
