## SPECIFICATIONS

The PP760021V36/V6/V9 DA and SR series V-ball packages feature the Valpres 760021V36/V6/V9 ball valve with 25% carbon filled PTFE steam trim seats and seals. The valve is ANSI Class 150, meets B16.10 and B16.34, and incorporates a grounded ball and stem. The valve is rated up to 200WSP. The Valbia pneumatic actuator comes with a hard-anodized aluminum body, and powder coat-ed end caps. In addition, all Valbia pneumatic actuators are standardly furnished with elevated temperature seals to 302°F. The patented side loaded limit stops never enter the piston chamber eliminating extra possible leak paths. The assembled package also features a compact PNP-B positioner with an input signal of 3-15psig.
